SUMMARY

Shipment After Shipment:
Consistent High-Quality

PRO-PAK[®] protein concentrate was created over 40 years ago by H. J. Baker. Today it is used worldwide as a cost-efficient replacement for fishmeal in poultry and aquaculture feed formulations.

PRO-PAK[®] protein concentrate is a recognized and sought after ingredient because it contributes a high level of amino-acids, metabolizable energy and digestibility to the diet at a fraction of the cost of traditional fishmeal.

PRO-PAK[®] protein concentrate benefits have been successfully proven and affirmed repeatedly through continuous research performed by universities and independent nutritionists.
