## WITH PRO-LAK® YOU GET QUALITY & CONSISTENCY. WHY?

### Industry Knowledge:

Quality maintenance and assurance begins by sourcing raw materials only from suppliers that meet the standards demanded by H.J. Baker & Bro., Inc.

### Ingredient Testing:

Incoming ingredients are subjected to both physical and chemical testing to assure that accepted standards are maintained.

### Fixed Formula:

PRO-LAK® formulation is produced from a fixed formula which does not vary with changing market conditions.

### Product Testing:

Finished blends are sampled and tested for their proximate components and amino acid profiles.
